

USING THE DATABASE

Thank you for using the Special Services Resource Library database. These instructions will help you in placing your order.

You may add items to your cart at any time by selecting the “Add to cart” link at the right of the item’s description. To view the items in your cart, click on the round shopping cart image at the bottom of the screen.

To place your order, you will need to login. If this is your first time using the database, click the “Become a Member” button and fill in your name, the mailing address to which you’d like the materials sent, your email address, and a four-character minimum password – this will automatically log you into the system and allow you to submit your order. On subsequent visits, simply click the “Login” button and fill in your username (your email address) and password. Once you have logged in, you have the option of changing your name or mailing address by selecting the “Change details” button.

To search through the database for only the items you’re interested in, select a value from any or all of the drop-down lists and click the “Search” button. To view the entire database, reset each value to “All” and click “Search” again.

In the following example, the database has already been filtered to show only those items with a subject of *Social Studies*, and can then be narrowed down to show only Social Studies items available for *Grade 7* students.
